## Education Philosophy

### **Kindergarten Section**

The emphasis at this early stage is not on academic development but on the student's general well-being and intelligence. We seek to improve their emotional intelligence

and social skills as well as encouraging them in all aspects of physical education.

### **Primary Section**

In this level, we ensure students have basic life skills so they undergo a smooth transition to higher levels of education. We seek to develop all aspects of their intelligence so as to guarantee our students are on their way to becoming well-rounded individuals.

### **Teacher**

Every teacher in the Demonstration School CMRU is a graduate with a strong educational background. They are omniscient and have a lot of abilities. CMRU supports a policy of “self-development” for teachers by encouraging teachers to further their training by attending seminars including education observation. CMRU provides support for teachers in the form of scholarships, for those wishing to study for higher degrees , including Masters level.

Our goal is to have a team of highly motivated, skilled teachers with Masters degrees who possess all the necessary tools to unlock their student’s full potential.

## Vision of the school

The school aims to give its students the very best opportunity to become knowledgeable and valued members of society. We achieve this by having a learner-centred approach to the curriculum , encouraging students to undertake research and to be in step with the latest developments in technology. The local integration programme allows students to participate in community life so as to develop the student's physical and emotional well-being , ensuring our students become citizens , in the truest sense of the word.
